

U₂O REMOVER™

Premier Urethane Floor Finish Remover

U₂O Remover, an Extremely Effective Urethane Floor Finish Remover

U₂O Remover was formulated specifically for the removal of semi-permanent floor finishes. U₂O can be safely used on vinyl composite, linoleum, and ceramic floor surfaces. U₂O is fast reacting and a very aggressive stripper. U₂O is effective for removal of MightyOne HD Urethane and any other one or two-component urethane systems, UV-cured systems, and standard acrylic floor finishes.

Product Advantages & Specifications
